Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET OVERVIEW

According to the Government's 2018–2019 Budget Speech, the Government is expecting to raise supply of residential property with almost 200,000 units in the next 3–5 years in public and private housing sectors. Also, the Government sets aside HK\$22 billion to implement the first batch of government projects.

It is expected that the ongoing and new infrastructure projects will increase demand for splicing systems. The prospects of the mechanical splicing service market will also be affected by further development of the property market in Hong Kong, including expected increase in construction of residential and non-residential properties.

BUSINESS REVIEW

The Group is principally engaged in providing mechanical splicing services to the reinforced concrete construction industry in Hong Kong and is the second largest provider of this industry in Hong Kong in terms of overall sales revenue in 2017.

The Group will continue to cautiously monitor the business opportunities and continue to strengthen its competitiveness in the market to enhance the profitability of the Group and interests of the shareholders of the Company.

OUTLOOK

The Board has foreseen that the Government has implemented policies and measures to promote economic growth by developing infrastructure and public sector projects. Thus, the Board expects that, considering the positive influences of the development of infrastructure and public sector projects, the Group will grow steadily and gradually in near future.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

In the three months ended 31 March, our revenue decreased by approximately HK\$2.8 million or approximately 19.3% from approximately HK\$14.5 million in 2018 to approximately HK\$11.7 million in 2019.

During the nine months ended 31 March 2019 (the “Period”), our revenue also decreased by approximately HK\$1.8 million or approximately 4.4% to approximately HK\$38.3 million from approximately HK\$40.1 million for the nine months ended 31 March 2018.

The decreases in the above periods were mainly attributable to (i) price reduction in response to the intensified competition in the industry; and (ii) shortening of the overall working days of production due to public holidays in the three months ended 31 March 2018 and 2019.

Cost of Sales

In the three months ended 31 March, our cost of sales decreased by approximately HK\$1.7 million or approximately 19.0% from approximately HK\$9.0 million in 2018 to approximately HK\$7.3 million in 2019.

During the Period, our cost of sales increased by approximately HK\$1.2 million or approximately 5.3% to approximately HK\$25.2 million from approximately HK\$24.0 million for the nine months ended 31 March 2018.

The fluctuations in the above periods were mainly attributable to (i) an additional cost for quality control performed by a third-party testing laboratory in Taiwan and slight increase in direct labour cost during the Period; and (ii) decreases in direct overheads and consumables in the three months ended 31 March 2019 while the fixed component of Cost of Sales was remained unchanged.

MANAGEMENT DISCUSSION AND ANALYSIS

Other Income

In the three months ended 31 March, our other income increased by approximately HK\$0.4 million or approximately 128.9% from approximately HK\$0.3 million in 2018 to approximately HK\$0.7 million in 2019.

During the Period, our other income increased by approximately HK\$1.9 million or approximately 233.7% to approximately HK\$2.7 million from approximately HK\$0.8 million for the nine months ended 31 March 2018.

The increases in the above periods were mainly attributable to increase in testing income recognized for the periods.

Gross Profit

In the three months ended 31 March, our gross profit decreased by approximately HK\$1.1 million or approximately 19.9%, from approximately HK\$5.6 million in 2018 to approximately HK\$4.5 million in 2019.

During the Period, our gross profit also decreased by approximately HK\$3.0 million or approximately 18.8% to approximately HK\$13.1 million from approximately HK\$16.1 million for the nine months ended 31 March 2018.

Such decreases were mainly due to reasons disclosed in revenue and cost of sales per above.

Administrative Expenses

In the three months ended 31 March, our administrative expenses increased by approximately HK\$0.4 million or approximately 16.3%, from approximately HK\$2.5 million in 2018 to approximately HK\$2.9 million in 2019.

During the Period, our administrative expenses also increased by approximately HK\$0.4 million or approximately 4.7% to approximately HK\$8.5 million from approximately HK\$8.1 million for the nine months ended 31 March 2018.

MANAGEMENT DISCUSSION AND ANALYSIS

The increases in the above periods were mainly attributable to increases in indirect labour cost.

Profit and Total Comprehensive Income Attributable to Owners of the Company

In the three months ended 31 March, our profit attributable to equity holders of the Company increased by approximately HK\$1.9 million or approximately 344.1%, from a loss of approximately HK\$0.5 million in 2018 to a profit of approximately HK\$1.3 million in 2019.

During the Period, our profit attributable to equity holders of the Company also increased by approximately HK\$3.6 million or approximately 4,636.4% to approximately HK\$3.7 million from approximately HK\$0.1 million for the nine months ended 31 March 2018.

The increases in the above periods were mainly attributable to a fact that the Company, successfully listed on 12 July 2018, didn't incur considerable listing expense after the Listing of the Company.

Liquidity and Financial Resources

The Group practiced prudent financial management and maintained a strong and sound financial position during the Period. As of 31 March 2019, the Group had cash and cash equivalents of approximately HK\$54.3 million (30 June 2018: approximately HK\$10.0 million). The increase in cash and cash equivalents was mainly attributable to the funds raised in the IPO and the settlements of trade receivables from the customers during the Period.

As at 31 March 2019, the Group did not have any outstanding borrowing and other indebtedness.

The current ratio, calculated as the total current assets divided by total current liabilities, was approximately 5.4 times as at 31 March 2019 (30 June 2018: approximately 1.6 times). The gearing ratio, calculated as all obligations under finance leases divided by total equity, was approximately 0.001 times as at 31 March 2019 (30 June 2018: approximately 0.004 times).

MANAGEMENT DISCUSSION AND ANALYSIS

Foreign Exchange Exposure

The Group purchased all of the couplers used in our business operations from Taiwan. These purchases were denominated in TWD. The Group expects to continue to make coupler purchases in Taiwan in the near future. Accordingly, fluctuations in TWD against HK\$ may result in exchange losses or gains and affect our results of operations.

The Group has not entered into any agreement to hedge our exchange rate exposure relating to TWD and will continue to monitor its foreign exchange exposure. The Group will consider hedging significant foreign currency exposure should the need arises and no derivative financial instruments were held by the Group as at 31 March 2019 for speculative purposes. During the three months ended 31 March 2019, all our revenue was generated from services of processing and connecting reinforcing bars in Hong Kong. Accordingly, we have only one single operating segment and one geographical segment.

Contingent Liabilities

As at 30 June 2018, the Group was involved in a litigation related to claims of defamation and malicious falsehood against a subsidiary of the Company for alleging that plaintiff's coupler system infringes the patent. The legal claim is still in preliminary stage and the final outcome is unable to be determined at this stage based on legal advice to the Group.

Save as disclosed above and as at 31 March 2019, the Group did not have any material contingent liabilities (30 June 2018: Nil).

Commitment

As at 31 March 2019, the Group had the non-cancellable operating lease commitments in respect of office and workshop for approximately HK\$1.4 million (at 30 June 2018: approximately HK\$3.1 million).

Save as disclosed above, the Group did not have any material capital commitment.

MANAGEMENT DISCUSSION AND ANALYSIS

Dividends

The Board does not recommend the payment of dividend in respect for the Period (for the three months ended 31 March 2018: nil).

Pledge of Assets

As at 31 March 2019, the Group did not have pledged assets as at 31 March 2019 (at 30 June 2018: Nil).

Capital Structure

The Company's capital comprises ordinary shares and capital reserves. The Group finances its working capital, capital expenditures and other liquidity requirements through a combination its cash and cash equivalents, cash flows generated from operations and bank facilities.

Future Plans for Material Investment and Capital Assets

The Group did not have any other plans for material investment and capital assets as at 31 March 2019 save for the acquisition a parcel of land to open new workshop in Hong Kong, details of which are set out in the prospectus of the Company dated 28 June 2018.

The Company has actively sought out a suitable parcel of land, but no land was suitable for acquisition due to rising price and limited supply of lands.

Significant Investments Held, Acquisitions and Disposals

There were no significant investments held, acquisitions or disposals of subsidiaries, associates, joint venture and affiliated companies by the Group during the Period.

The Group did not have any other material plans for significant investments, acquisitions and disposals of subsidiaries, associates and joint ventures as at 31 March 2019.
